Attn: Wally Tharp

Dear Mr. Tharp:

We, Feather Foot Farm, have been using Fossil Flour and many other of your related products since 1968. It is without question the most effective products, when used for their respective purposes, we have found.

We breed and raise Arabians, thoroughbreds and quarter horses. There is no doubt in our minds that our success with the care of these horses, is in part due to the wonderful benefits derived from Fossil Flour.

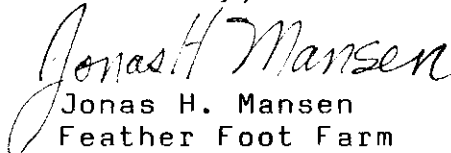

Our fly problem prior to Fossil Flour usage was enormous. Now, we have none!

The general appearance of our horses: clear eyes, shiny coats and alertness, can't be minimized when compared with other horses that do not receive Fossil Shell Flour.

In short, we would dread not being able to use your products!

We are looking forward to a long lasting relationship with you and your company. Hopefully we can become of greater help to you in the near future in distributing these great products.

Sincerely,

  
Jonas H. Mansen
