

# NEW! BioImmune Introduces

## ULTRA Absorbic C™

NOW WITH ALPHA LIPIC ACID

Breakthrough technology allows an intravenous level of Vitamin-C to be taken orally.  
**NON CORN DERIVED + ESSENTIAL PHOSPHOLIPIDS (EPL) = ULTRA ABSORBIC C™**

This new Ultra Absorbic C™ is a combination of non-corn derived Vitamin-C and essential phospholipids (EPL). It is a micro encapsulation system which allows maximum assimilation of the product because this new innovative delivery system is taken orally and enhances the transport of Ultra Absorbic C™ through the intestinal wall.

The integration of this delivery system and high purity non-corn derived Vitamin-C makes Ultra Absorbic C™ unique. This combination enhances the substantial benefits of both essential phospholipids (EPL) and Vitamin-C which is ideal for such conditions as:

- Cold & Flu
- Mono
- Detoxification
- Cancer & Maintenance Programs
- Herpes
- HIV
- Hepatitis-C
- ALS
- MS
- CFS/FM
- Cardiovascular Enhancement
